## Read Carefully

I work in a public library and I like to read and do research. I help people find books, magazines, videos, websites, and other information. Another part of my work is to buy new books, magazines, and movies for the library. I arrange books and other items so that people can find them.

A librarian also needs computer skills because most libraries have computers. I often also help people using the computer to find what they need.

The best part of my job is helping people. There are many kids who love reading. They sometimes ask me if I could help them to find an interesting book. But I also spend a lot of time at my desk or at the computer entering the data of books and people.

Making budgets and keeping records is a part of my job too, but I don't like it very much.

I work full time, but there are two librarians who work part-time at our library. People can come to our library from Monday to Friday. Opening hours are from 9.00 am to 6.00 pm on Monday, Tuesday, and Friday. On Wednesday and Thursday, people can come to us from 10.00 am to 8.00 pm. Some librarians work weekends or evenings.

My sister, Anna is a school librarian. She loves reading to children and teaching them about books and research. Anna works when school is open and she is off during school vacations.

Some librarians work in government, businesses, and other places where people need to find information quickly.

You usually need a graduate degree in library science or information science to be a librarian.

## Read and Answer

### The Brave Firefighter

I was playing video games in my room the other day when I heard screams. When I went outside, I discovered that my neighbors' house was on fire!

The firemen arrived in less than 10 minutes and fought the fire for an hour until they were able to escape. Wow! They are extremely courageous! One of them broke into the house and rescued Johnson's dog, who was trapped in the fire.

I made a decision: when I grow up, I want to be a firefighter. I'll be brave and strong enough to fight the fire and save people's lives and property. I can hardly wait! I can already see it in the paper: "Brave fireman saves a family of four," and Mom will be overjoyed.
