My mother is a teacher. Today, she is teaching children about jobs. She tells them that doctors work in hospitals, and help the sick get well. She tells them that pilots fly planes from one airport to another. She tells them policemen work at the police station, and help keep our city safe. My mother makes her students write a letter to policemen and doctors to thank them for helping our city. Then, she takes the children to the post office to mail their letters.

Helping The City
